

HOW COLOCATION CAN HELP YOUR BUSINESS

WHAT IS COLOCATION?

A hosting service offered by major data centers that provides companies a place to host their servers and other IT hardware in a high-tech facility.

WHO IS COLOCATION FOR?

Companies large and small use Colocation as a primary location for IT infrastructure and servers as well as a secondary location for disaster recovery planning.

WHY COLOCATE?

To maintain your servers and IT infrastructure in a secure, compliant, cost effective, and 100% uptime environment.

BENEFITS OF COLOCATION

Growth capacity

Maximized uptime

Cost savings

Security & compliance

Privacy & data protection

GROWTH CAPACITY

Turn up huge amounts of power and bandwidth within minutes for instant scalability.

MAXIMIZED UPTIME

Continuous power provided by industrial UPS battery systems & on-site diesel generators for emergency backups.

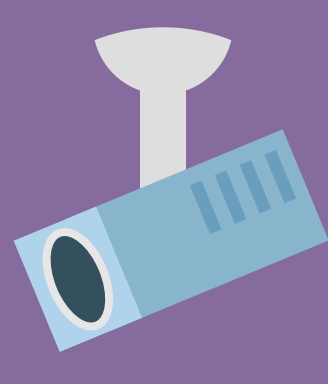

COST SAVINGS

Businesses spend hundreds of thousands of dollars a year to maintain redundant critical systems, where colocation solves the same for as low as \$100 a month.

SECURITY & COMPLIANCE

Video cameras

24x7 on-site staff

Physical barrier access to the computers

Regulatory compliance

PRIVACY & DATA PROTECTION

The company can strictly control which employees or vendors have access to your IT equipment.
